The following summarizes the total number of ticket packages licensed and the manner in which the ticket numbers are assigned to a ticket regardless of the ticket delivery method.

We control ticket processing in the following manner. As per the sample tickets being sent to your office, there are 1000 ticket sets printed as 1 ticket for \$5.00 (total tickets 1000). The ticket number is assigned by the computer and printed with a leading alpha character "F". Next, there are 15,000 ticket sets; each set printed is 7 tickets for \$25.00 (total tickets 105,000). The ticket numbers are assigned by the computer and printed with a leading alpha character of "G". Next, there are 15,000 ticket sets; each set printed is 15 tickets for \$50.00 (total tickets 225,000). The ticket numbers are assigned by the computer and printed with a leading alpha character of "H". Finally, there are 15,000 ticket sets; each set printed is 50 tickets for \$100.00 (total tickets 750,000). The ticket numbers are assigned by the computer and printed with a leading alpha character "J".

For all tickets (E-tickets), the ERS generates an E-Ticket utilizing a high-volume e-mail protocol, an e-mail containing a pdf ticket is sent to the ticket buyer. The ticket numbers are assigned as outlined above.

From this point we verify that total tickets sold and printed equal funds received for any given day. Adam Parker, 50/50 Chairman - Kinsmen Club of Coaldale (403-394-6931), prior to any and all draws verifies all these processes and ensures the records are balanced with tickets sold and money received.
